"THE STORY OF THE FARALLONES."

A BEAUTIFUL SOUVENIR.

BY H. R. TAYLOR AND C. BARLOW.

The Farallone Islands, the "Paradise of Oologists," and the greatest Ornithological wonder in America today, have never been fully described or illustrated. Farallone Island has been visited by but a hand full among the thousands of collectors who have read of the marvellous myriads of the bird tribe which make it their summer breeding home.

The Story of the Farallones is an elegant souvenir, with artistic cover, printed on heavy coated paper, profusely illustrated with the finest half-tones that can be made, graphically presenting the picturesque features of the Islands, with their countless Gulls, Cormorants, Murres, Puffins, Petrels, Pigeon Guillemots, etc.

One large illustration presents a panoramic view of South Farallone Island. showing it complete from Fisherman's Bay and Arch Rock to South Landing, and extending to the "bridge over Jordan"—a most ingeniously conceived picture from unpublished photographs, giving the first complete idea of the wonders of this densely populated city of the birds.

PRICE 50 CENTS.
